可以将整个网站下载到本地后脱机查看的工具 免费

SiteSucker is an application that automatically downloads web sites from the Internet. It does this by copying the site's HTML documents, images, backgrounds, movies, and other files to your local hard drive. Just enter a URL and click a button and SiteSucker can download an entire web site.

SiteSucker can be used to make local copies of your web sites for easy maintenance. SiteSucker can download files unmodified or it can "localize" the files it downloads, allowing you to browse a site off-line.

Best of all, SiteSucker is free.
