Hello,

You are receiving this note because you are an administrator on at least one project hosted on Java.net or Kenai.com.

We will be closing both websites on April 28, 2017. You may request a tarball of your project assets and get instructions to download a copy of your bugs here: <https://community.oracle.com/community/java/javanet-forge-sunset>

You may also request a redirect to a new homepage of your choice.

Please note that we will be honoring one request per project, on a first come, first served basis. Once a request is made any changes to the project will be lost. If you share administrator access with other members you must coordinate with them on a plan of action before making your request. All communications from us will be to all project administrators once this process begins.

Finally, the old Java.net home page redirects to community.oracle.com/community/java now. If you need to log in to Java.net you can do so at <https://java.net/people/login>.

If you have any questions please ask in the discussion area of the request page here - <https://community.oracle.com/community/java/javanet-forge-sunset>, or send a note to communityanager@java.net.

早期 [Latke] 的 [IoC] 模块就是在 Kenai 上面开源的。
