```
<pre class="prettyprint">server {
  listen 80;
  server_name www.***.com;

  rewrite ^/abc$ http://static.***.com/static/pages/help.html last;
  location = / {
    root /home/w;
    index index.html;
  }
  location = /index.html {
    root /home/w;
    index index.html;
    add_header Cache-Control no-store;
  }

  location ^~/about/ {
    rewrite ^/about/1.html$ /static/pages/help.html?type=about break;
    proxy_pass http://static.*.com/static;
  }
}
```

 访问http://www.***.com/about/1.html则显示http://static.*.com/static/pages/help.html?type=about的内容,但地址栏url不重写.</pre>
