springframework 的版本是4.3.2 采用以下代码加载配置文件

```
<context:property-placeholder  
    ignore-resource-not-found="true" local-override="true"  
    location="classpath:/META-INF/configuration/environments/application-backend-dev.p  
roperties" />
```

maven结构，配置文件路径 src/main/resources/META-INF/configuration/environments/application-backend-dev.properties

spring配置文件头如下：

```
<?xml version="1.0" encoding="UTF-8"?>  
<beans xmlns="http://www.springframework.org/schema/beans"  
    xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance" xmlns:context="http://www.springfr  
amework.org/schema/context"  
    xmlns:aop="http://www.springframework.org/schema/aop" xmlns:tx="http://www.springfr  
amework.org/schema/tx"  
    xmlns:p="http://www.springframework.org/schema/p"  
    xsi:schemaLocation="  
        http://www.springframework.org/schema/beans http://www.springframework.org/sch  
ma/beans/spring-beans-4.3.xsd  
        http://www.springframework.org/schema/context http://www.springframework.org/sch  
ma/context/spring-context-4.3.xsd  
        http://www.springframework.org/schema/aop http://www.springframework.org/schem  
/aop/spring-aop-4.3.xsd  
        http://www.springframework.org/schema/tx http://www.springframework.org/schema/  
x/spring-tx-4.3.xsd">
```

加载不到配置文件中的属性 \${} 取不到值。谁来解决一下，注意springframework的版本
