启动报错 意思是es拥有的内存太小

max virtual memory areas vm.max_map_count [65530] is too low, increase to at least [262144]

切换root用户 su root

输入命令

```
sysctl -w vm.max_map_count=262144
```

查看

```
sysctl -a|grep vm.max_map_count
```

结果

```
vm.max_map_count = 262144
```

防止以后再出现这种情况

切换到root用户修改配置sysctl.conf

```
vi /etc/sysctl.conf
```

添加下面配置:

```
vm.max_map_count=655360
```

并执行命令:

```
sysctl -p
```

然后,重新启动elasticsearch,即可启动成功
