报错信息如下:

Caused by: java.security.InvalidKeyException: Illegal key size or default parameters

JDK8 jar包下载地址:

<http://www.oracle.com/technetwork/java/javase/downloads/jce8-download-2133166.html>

JDK7 jar包下载地址:

<http://www.oracle.com/technetwork/java/javase/downloads/jce-7-download-432124.html>

JDK6 jar包下载地址:

<http://www.oracle.com/technetwork/java/javase/downloads/jce-6-download-429243.html>

把里面的两个jar包: local\_policy.jar 和 US\_export\_policy.jar 替换掉原来安装目录C:\Program Files\Java\jre6\lib\security 下的两个jar包接可以了
