如下所示:

FreeMarker template error:

The following has evaluated to null or missing:

==> pullGitHubLabel [in template "admin/admin-preference.ftl" at line 181, column 19]

Tip: If the failing expression is known to legally refer to something that's sometimes null or missing, either specify a default value like `myOptionalVar!myDefault`, or use `<#if myOptionalVar?>when-present<#else>when-missing</#if>`. (These only cover the last step of the expression; to cover the whole expression, use parenthesis: `(myOptionalVar.foo)!myDefault`, `(myOptionalVar.foo)?`?)

FTL stack trace ("~" means nesting-related):

- Failed at: `${pullGitHubLabel}` [in template "admin/admin-preference.ftl" at line 181, column 17]

Java stack trace (for programmers):
