如何在MySQL的docker容器中安装vim以及其他的工具?

先进入MySQL容器:

```
docker exec -it <mysql容器id> bash
```

配置网易的镜像源

```
mv /etc/apt/sources.list /etc/apt/sources.list.bak
echo "deb http://mirrors.163.com/debian/ jessie main non-free contrib" > /etc/apt/sources.lis
echo "deb http://mirrors.163.com/debian/ jessie-proposed-updates main non-free contrib"
>/etc/apt/sources.list
echo "deb-src http://mirrors.163.com/debian/ jessie main non-free contrib" >>/etc/apt/sourc
s.list
echo "deb-src http://mirrors.163.com/debian/ jessie-proposed-updates main non-free contri
" >>/etc/apt/sources.list
apt-get update
```

安装vim编辑器

```
apt-get install vim
```

安装其他的工具亦是如此!
