## 1.安装 zsh

```
yum -y install zsh
```

## 2.切换默认 shell 为 zsh

```
chsh -s /bin/zsh
```

>

注意：有的教程会让在这一步重启机器，我们可以先暂不重启，等最后一步执行完毕后重启即可

<

## 3.安装 on my zsh

>

```
sh -c "$(curl -fsSL https://raw.githubusercontent.com/robbyrussell/oh-my-zsh/master/tools/install.sh)"
```

<

>

```
sh -c "$(wget https://raw.githubusercontent.com/robbyrussell/oh-my-zsh/master/tools/install.sh -O -)"
```

<

>

实际上到这一步 oh my zsh 就已经安装完成了,这时重启即可永久生效

<

## 4.修改 oh my zsh 主题

>

```
ls ~/.oh-my-zsh/themes
```

<

>

```
adben.zsh-theme      gallois.zsh-theme    nicoulaj.zsh-theme
```

```
af-magic.zsh-theme  garyblessington.zsh-theme norm.zsh-theme
```

```
afowler.zsh-theme  gentoo.zsh-theme     obraun.zsh-theme
```

```
agnoster.zsh-theme geoffgarside.zsh-theme peepcode.zsh-theme
```

```
alanpeabody.zsh-theme gianu.zsh-theme      philips.zsh-theme
```

```
amuse.zsh-theme    gnzh.zsh-theme       pmcgee.zsh-theme
```

```
apple.zsh-theme    gozilla.zsh-theme    pure.zsh-theme
```

```
arrow.zsh-theme    half-life.zsh-theme  pygmalion.zsh-theme
```

<

>

```
vim ~/.zshrc
```

<

可以看到默认的主题是 `ZSH_THEME="robbyrussell"` 改成自己喜欢的即可
