```

#!/bin/bash
#-----
# This script is for:
# 1. to download the scripts/binaries/images needed for installing a k8s cluster with kubeasz
# 2. to run kubeasz in a container
# @author: gjmzj
# @usage: ./easzup
# @repo: https://github.com/easzlab/kubeasz
# @ref: https://github.com/kubeasz/dockerfiles
#-----
