yml脚本如下

```
name: CI

on:
  push:
    branches:
      - master

jobs:
  build:
    runs-on: ubuntu-latest
    steps:
      # 切换分支
      - name: Checkout
        uses: actions/checkout@master
      # 下载 git submodule
      - uses: srt32/git-actions@v0.0.3
        with:
          args: git submodule update --init --recursive
      # 使用 node:10
      - name: use Node.js 10
        uses: actions/setup-node@v1
        with:
          node-version: 10
      # npm install
      - name: npm install and build
        run: |
          npm install
          npm run build:prod
        env:
          CI: true
      # Deploy
      - name: Deploy to Server
        uses: easingthemes/ssh-deploy@v2.0.8
        env:
          SSH_PRIVATE_KEY: "${{ secrets.ALIYUN_TOKEN }}"
          ARGS: "-avz --delete"
          REMOTE_HOST: "${{ secrets.ALIYUN_HOST }}"
          REMOTE_USER: "${{ secrets.ALIYUN_ROOT }}"
          REMOTE_PORT: "${{ secrets.ALIYUN_PORT }}"
          SOURCE: "dist/"
          TARGET: "/opt/nginx/html/energy"
```

报错日志如下

```
✔ Set up job 3s
✔ Build srl32/git-actions@v0.0.3 12s
✔ Checkout 1s
✔ Run srl32/git-actions@v0.0.3 1s
✔ use Node.js 10 0s
✔ npm install and build 2s 30s
✖ Deploy to Server 4s
  1 ▶ Run easiingthemes/ssh-deploy@v2.0.8

✔ Post Checkout 0s
✔ Complete job 1s
```

在阿里云上发布的那一步永远会报错，但是deploy到腾讯云上就没问题。腾讯云会给我发异地登录的箱提示，阿里云是直接拦截掉了么，有人遇到类似的问题吗？
ray ?
