在GitHub上接触一个新项目时，如果有一个详实有效的**README**，可以极大降低学习成本，提升用户体验。

上篇文章中也介绍了介绍了如何通过badge等方式，让你的**README**更直观。

但是另一个很重要的信息总是被忽略，那就是个人介绍。如果把个人也看成一个项目，如何让其他人速了解你，并且与你合作？无论是获取、还是给予相关帮助。

其实GitHub提供了一个自定义个人首页的方式，只不过隐藏在了隐秘的角落，不为众人所知。

Secret Repository

嘘 **This is a secret!**

这可是官方告诉我的

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Owner * Repository name *

 wangyuheng ▾ /

You found a secret! **wangyuheng/wangyuheng** is a ✨ *special* ✨ repository that you can use to add a README.md to your GitHub profile. Make sure it's public and initialize it with a **README** to get started.

Description (optional)

整个过程十分简单，只需要新建一个和GitHub 用户名匹配的项目即可。需要满足2个条件

- 项目必须是Public

Description (optional)

Public

Anyone on the internet can see this repository. You choose who can commit.

Private

You choose who can see and commit to this repository.

- 选择 Initialize this repository with a README

- Public**
Anyone on the internet can see this repository. You choose who can commit.
- Private**
You choose who can see and commit to this repository.

Skip this step if you're importing an existing repository.

Initialize this repository with a README
This will let you immediately clone the repository to your computer.

Add .gitignore: None ▾

Add a license: None ▾

Create repository

新建后，即可在个人首页中看到多了一个个人首页窗口。

The screenshot shows the GitHub interface for a newly created repository. At the top, there are navigation links: Pull requests, Issues, Marketplace, and Explore. Below that, there are tabs for Overview, Repositories (22), Projects, and Packages. The main content area displays a README file for 'wangyuheng / README.md'. The README text reads: 'wangyuheng/wangyuheng is a special repository because its README.md (this file) appears on your GitHub profile. Here are some ideas to get you started:'. Below this, there is a list of suggestions with icons: 'I'm currently working on ...', 'I'm currently learning ...', 'I'm looking to collaborate on ...', 'I'm looking for help with ...', 'Ask me about ...', 'How to reach me: ...', 'Pronouns: ...', and 'Fun fact: ...'. There is a 'Send feedback' button and an edit icon. At the bottom, there is a 'Pinned' section and a 'Customize your pins' link.

repository创建后，Github已经用模板预先填充了生成的README文件，按照官方推荐来介绍自己吧

```
octocat / README.md Cancel

高大上吗？这才刚刚开始

Style

虽然这是一个 .md 文件，但是支持 HTML 解析。可玩性是不是瞬间提高了？

但是觉得直男审美，或者技能受限？没关系，我们还可以直接使用前端大佬们最喜欢造的轮子

关闭个人首页

有一天自闭了，不想在首页向其他人介绍自己，有以下几种方式

- 删除README.me文件。
- 仓库设置为私有。
- 仓库名称不再与Github用户名匹配。
