```

注意事项:

- 使用脚本前需要先准备centos6, 7, 8系统镜像并写入到脚本变量中os_centos{6.7.8}_file中, 否则无法运行
- 脚本需要在centos8系统中使用
- 执行完毕后可以同时部署centos6, 7, 8系统
- ks应答文件可以自己进行自定义
- 脚本执行过程中需要键入的参数需正确填写否则会导致服务无法启动尤其dhcp服务
